Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 25, 2006 has been entered.

The following is an examiner's statement of reasons for allowance: applicant's amendments have distinguished the claims from the prior art of record. In particular, independent claims 1 and 23 have been amended to recite the specific algorithm used by the control means to calculate the impedance and control the delivery of energy to tissue. The prior art fails to disclose the particular algorithm which compares the ratio of the measured change in impedance to the nth delivery impedance to a predetermined value to indicate the completion of coagulation as now recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
